

Lodging

The first decision you take when you are planning your journey is, without a doubt, your choice of where to sleep.

In North Alentejo, the choice is very varied. As well as the network of Enatur Pousadas, traditional accommodation includes well-provided establishments in various categories, from the small to the medium-sized. In particular, the latter have sought to cater for the requirements of Business and Incentives Tourism, providing the space, resources and expertise essential for the reception of business groups. With regard to Tourism in Rural Areas, the houses available are in excellent locations, offering to those who seek them everything that makes them so special: the beauty of the landscape, active or contemplative leisure, the tranquillity of the countryside. In some situations spaces of appreciable size for group meetings or meals are also available.

Lovers of the open-air life have at their disposal private or public Camping Parks, almost always situated close to reservoirs.

To complete this range of choices, there are the Guest Houses or Boarding Houses, lodgings licensed exclusively by the local municipal authorities.

Guia de Oferta do Norte Alentejano
